[redacted]

3/11/2025

To the Joint Standing Committee on Electoral matters -Inquiry into the 2025 Federal Election:

I would like to submit some very aggressive, violent and inappropriate behaviors during the May Federal election 2025

I am in the electorate of Goldstein, and I was a volunteer for the standing MP [redacted].

I experienced verbal abuse and comments from the public such as "Well you can take that disgusting tee shirt off!" to behaviors where I sought some psychological help from a retired psychologist who was also a volunteer for [redacted].

I was witness to a volunteer from the [redacted] campaign smash into a car and run off to start placing how to vote cards under the windscreens of parked cars. I stopped handing out how to vote cards and talking to the public and stayed by the smashed car. I wanted to alert the owners when they had returned from pre polling. Apparently, the women had already smashed into someone at the roundabout on North Road before she arrived at the Pre Polling booth.

At pre polling in Hampton I was standing a little way down from the polling booth with a partner when some [redacted] volunteers came and stood directly in front of us on the footpath. They literally stood 30 centimeters in front of us to stop us having conversations or handing out cards.

The same thing happened at the Beaumaris Concourse. [redacted] was in attendance and on a Q and A with the public outside a supermarket. Our volunteers were there to introduce the public to [redacted] if they wanted to ask her questions or have a general chat. The [redacted] volunteers were around the corner at a coffee shop when they found out we were at the supermarket. The [redacted] left the coffee shop and had the same tactic. To stand in front of the volunteers and intimidate us.

I also received a letter from the Neo Nazis after the May election, and I still have it if it can be used as evidence of intimidating and aggressive behavior. It was signed by 'Your Aryan Communications Support Officer'. See attached letter as received.

The worst and most violent event happened in February as we were about to start door knocking in Cheltenham. We were gathered in a circle of about 20-30 volunteers ready for a briefing. The briefing consisted of the map of our walk, organising our walking

partners, how to conduct ourselves as volunteers and making a meeting time to de brief.

A man was in his car, and in the driveway facing us, completely opposite to our group on the other side of the road. He was staring at us when he put on some incredibly loud music. I thought at first, he was giving us the loud music to inspire us and make it a great vibe! He was also revving his engine very loudly. Suddenly the man screeched out of his driveway and took off so fast that it made us all stop and turn as he was also screaming obscenities out of his window. We all heard him driving around the block as he sped all the way. Then he returned to his driveway and entered it so fast that he hit his side fence and smashed the left rear guard on his car.

He sat for a few minutes still revving his car. Some volunteers had begun their walk and I was one of the last ones to leave (with my partner). The man jumped out of his car and was absolutely screaming at us. l. He was screeching at the coordinator about [redacted] being pro Palestine or Pro Israel – I can't remember. One of the volunteers started to video him as he was so out of control!

The man then proceeded to harass the volunteers on their walk. He drove the streets searching for the volunteers to verbally abuse them. The lead organizer contacted the Police about the abuse and harassment by then, but I'm not sure what happened after that.

It was about 3am the next morning that I woke up and couldn't sleep. I have a friend who was nearly hit in the Bourke street Mall incident, and I just thought "Oh God – he could easily have ploughed into us!"

I could not attend any volunteer work for the [redacted] campaign for a month after that and I was often triggered and became upset when speaking about it to other volunteers. The lady from the [redacted] campaign (retired psychologist) said that my reaction was a "normal reaction to an abnormal situation." I spoke to her about three times during the campaign and she was very helpful indeed.

Yours faithfully

Anastasia Redlich

Dear valued supporters,

Although the election result in some cases may not have been what was hoped for rest assured that our movement is as strong as ever. No matter who has a seat in Parliament our agenda cannot be stopped. Never forget our great inspiration Adolf Hitler faced arrest and much opposition before taking his rightful place as Fuhrer of Germany and with your assistance our movement can grow and take control of this country.

Our movement has [redacted] right where we want him we will be able to continue to support Ukraine, implement smart cities and control the population without being limited by impediments such as the Constitution. Setbacks like the Voice to Parliament referendum are but temporary and we will be able to implement measures to take control of food, land and energy to force the population to comply with our will.

In spite of all the good work that is happening behind the scenes it is important not to be complacent. We must continue to monitor and call out any misinformation that could be disruptive to our agenda. Monitoring will need to be taken to a new level with the roll out of surveillance cameras and increased digital tracking of speech and movements.

The pandemic showed that it will be possible to control and confine people, where they travel, eat and shop. Non desirables will be excluded from society by imposing costs like the new fire tax levy just as an example to limit people's budgets, keeping them subservient and confined. Undesirable activities such as the consumption of red meat must be discouraged. Never forget our much admired historical figure Adolf Hitler was a trail blazer in this regard.

The carbon footprint will be reduced further and future lockdowns are a must as we develop new viruses. At the moment new viruses are being trialled in South East Asian countries like MPox and Ebola which are purposefully designed to cull non aryan populations.

Our volunteers such as [redacted] and [redacted] will be in touch with you shortly to discuss ways in which you can contribute to Climate 200. We look forward to your continuing support to our organisation. Our objective is to make this a better planet for our movement.

In your service,

Your Aryan Communications Support Officer
